Hi Valerie- the portfolio isn't "complete" until the end of the student's program, right? So, if we start in Winter 2014, is what they do for eP in a semester 1 course need to be assessed for marks toward the "complete portfolio" at the end of their diploma program?

Carol:-)

Hi Jen – I find the students in semester 1 really struggle with the newness of e-learn and all the websites they need to go to – we have a higher failure rate in semester 1 in our area so I'd like to see something very "step by step" for students. I think all these ideas are good and should be implemented.

Could the CTL session be best in a computer lab?

Carol☺

Subject: RE: Welcome Faculty Eportfolio Leads!

Hi Carol,

Great question – we are working on a support plan for both students and faculty. Our support plan for students involves:

- Offering technical support on D2L's EP tool thru the library's Tech Bar – there is one located at each campus and also support is available via email, chat and phone (available Jan. 6th onwards)
- Offering faculty the option of having a member of the CTL team visit his/her class to deliver a session on eportfolios, if time allows/ if the professor wishes; (available Jan. 6th onwards – scheduled with professor) ET
- Developing an online module just for students (one will also available for faculty) in eLearn on Eportfolios including tips and tricks for how to use the tool (available by end of January)

Pls let me know if you see any gaps or would recommend additional supports...we are happy to hear suggestions!

Thanks.
